

Gold Plan *Plus* Service

Enhanced Power System Maintenance Coverage Plus On-Site Start-up

Features

- ▶ On-site Start-up by Global Services
- ▶ Comprehensive corrective maintenance coverage for your system, including internal standard batteries
- ▶ Toll-free number for Gold Plan *Plus* Technical Support
- ▶ Maximum uptime and fast response for your system when service is needed

Gold Plan *Plus* Service is ideal for modular or plug & play systems, such as the Powerware® 9170 UPS (*LEFT*) and the Intergy NES DC Power System (*ABOVE*)

Powerware Global Services Gold Plan *Plus* service provides up to five years of bumper-to-bumper service with maximum responsiveness, plus the added convenience of on-site system start-up. The Gold Plan *Plus* delivers added assurance that your power system has been installed properly and is operating as designed to protect your critical equipment and information.

Powerware Global Services certified technicians validate the installation integrity of your AC or DC power system by performing the initial on-site start-up, verifying system operation. Bypass operation testing, software parameters confirmation and basic operational training are also included in the on-site system start-up.

When corrective maintenance is required, replacement components are delivered by an overnight carrier and your original components are picked up from your location. For added convenience all freight is paid for by Global Services.

Powerware Global Services delivers on-site support from a base of more than 250 U.S. technicians and 950 certified international service providers. These technicians support all brands manufactured by Invensys Powerware Division including Best Power, Data Trax, Deltec, Exide Electronics, Intergy, International Power Management (IPM), LorTec and Powerware. Please contact your local service sales manager or Global Services at 919-872-3020, or 800-843-9433 for more information.

Specifications subject to change without notice.

Enhance and extend your standard AC or DC system warranty with the added assurance of knowing your system is installed and operating properly from the start.
