

# MAXPOWER LINE CARD

// Visit us at [www.maxpowercorp.com](http://www.maxpowercorp.com)

Our comprehensive product offering meets the needs of virtually any application, while stock in two warehouses ensures quick shipment and delivery for your customers. MaxPower is a master distributor of the following manufacturers:

Partner  
Power Quality

**TOSHIBA**

## Uninterruptible Power Supplies (UPS)

Single and three-phase solutions that range from 400VA–750kVA in standby, line-interactive, online and ferroresonant topologies.

## Modular UPS

Three-phase solutions in 10kVA–100kVA models. Hot swappable modules provide the ultimate upgradable and serviceable UPS.

## Portable Air Conditioning

Space-saving, high-efficiency units deliver powerful cooling directly to areas filled with heat generating electronics. Simple to install; just roll it in, plug it in and turn it on.

## Rack Power Distribution Units (PDU)

Reliable power distribution for high density loads including outlet control, circuit metering and remote monitoring. Single-phase and three-phase models available.

## Automatic Transfer Switches (ATS)

Provide redundancy to single-corded devices. ATS provides a simple and reliable solution for automatically sensing power loss and seamlessly switching to an alternate power source.

## UL924 Lighting Inverters

Maintain efficient AC single-phase and three-phase emergency power to operate emergency lighting fixtures and protect against unwanted power outages and electrical disturbances.

## Micro-Modular Data Centers

Micro modular data centers reduce the cost that is normally needed to build and operate a traditional data center. Deployable indoors or outdoors and featuring closed loop redundant cooling, fire suppression, UPS and security. Available up to 80kW per rack.

## Maintenance Bypass Panels

MaxPower stocks multiple configurations of rack and wall mount maintenance bypass systems. Designed to safely isolate a UPS from utility power and from the protected load in order for a user to perform regular service and maintenance, the panels ensure that power is maintained at all times to the critical load.

## Replacement Batteries/Racks

Our replacement batteries are compatible with all manufacturers' UPS. We also offer custom cabinet battery systems to achieve extended runtimes with all UPS systems. Our battery solutions are available with a full 3 year warranty.

## Additional Accessories

- › Server cabinets
- › Power conditioners
- › Power factor correction
- › Harmonic filtering
- › Battery monitoring systems
